You will pass through the central park area, known as the Seronera area, one of the richest wildlife habitats in the park, featuring the Seronera River, which provides a valuable water source to this area and therefore attracts wildlife

well representative of most of the Serengeti's species. You will then head to Northern Serengeti to catch up with the wildebeest migration. Late overnight you will drive to the Lodge for dinner and overnight stay.

Day 3: Ngorongoro Crater- Arusha/Airport

Supported by a year round water supply and fodder, the Ngorongoro conservation Area supports variety of animals, which include herds of wildebeest, zebra, buffalo, eland, warthog, hippo, and giant African elephants. Another big draw card to this picturesque national park, is its dense population of predators, which include lions, hyenas, jackals, cheetahs and the ever-elusive leopard, which sometimes requires a trained eye to spot. We will visit Lake Magadi, a large but shallow alkaline lake in the southwestern corner, which is one of the main features of the crater.
